

CoBes grant conditions

Events: requirements and preferences

Requirements

- The event demonstrably contributes to the ambitions of the UM, faculty, school or department. When submitting the proposal, we ask for an agreement and confirmation by the dean or scientific director of the School.
- The event is in line with UM's strategic programme, meaning it is multidisciplinary, innovative and international.
- The event has collective social relevance.
- The financial means to execute the event are insufficient.

Preferences

- The event takes place in a building of Maastricht University or in the Limburg region.
- The faculty or department also contributes financially or in a different way.
- This funding opportunity is aimed at the organisation of expert meetings and small conferences that are difficult to finance without support from the UFL. Events that are organised annually are not eligible for a grant.

Excluded

- The proposal requests reimbursement for travel and subsistence expenses.
